

Shelby County Schools
 Long Range Strategic Planning
 Learning Supports Goal Action Plan
 2014-2015

Goal Action Plan To provide students and staff with the necessary resources and supports to help remove barriers to student learning so all students can have the same opportunities for success.

Rationale Shelby County Schools piloted the learning supports initiative in five schools during the 2013-2014 school year. This learning supports framework challenges schools to provide stakeholders support in six key focus areas: classroom approaches to learning, support for transitions, home and family engagement, community engagement, crisis assistance and prevention, and student and family interventions. Through the efforts of the five participating schools, noted improvements were made regarding increases in student attendance rates, decreases in overall student absences, and a decrease in student suspensions, in-school suspensions, and alternative school placements. The initiative was so successful in the participating schools that Shelby County is implementing the approach district-wide for the 2014-2015 school year.

System Goal Supported by GAP To provide the highest quality education and appropriate support for each student while meeting and exceeding all standards

Facilitator & Scribe of GAP Roxanna Traylor (Facilitator) and Melissa Youngblood (Scribe)
