

2019-2020 Annual Implementation Plan

CTEC goals for the 2019-2020 school year pertain to credentialing and attendance. CTEC offers eleven different career technical programs that aims for students to become college and career ready. Students are selected through an application process to become trainees. Once selected, the students participate in a simulated workplace environment that prepares them for the world of work. Students have the opportunity to earn industry recognized credentials.

Attendance is a crucial component for students to be successful at CTEC. The campus operates on a block schedule format allowing students to earn a full credit in a semester. Therefore, our campus goal is for all of our programs to have a 90% attendance rate.

Credentialing rates have fluctuated over the past two years. The passing rate for the 2017-2018 school year was 81% and the passing rate for the 2018-2019 school year was 71%. Our goal for the 2019-2020 is to increase credential passage rate by 5%.
