

## New Direction CSI goal 2019-2020

**Mission:** New Direction's mission is to prepare students to make successful academic, behavioral, and social-emotional transitions back into the base school environment.

**Vision:** New Direction's vision is to be the model for academic and behavioral excellence in alternative education.

**Beliefs:** Collaboration for Results – We believe in collaborating as a team to help each individual student achieve success in our unique environment.

### **Social-Emotional and Academic Learning (SEAL)**

New Direction will increase social-emotional and academic learning for 2019-2020 school year by 10%. Our strategy is to meet weekly with students and address social-emotional and academic needs through small group instruction and discussion. Students will complete weekly activities designed around social-emotional and academic needs through various opportunities such as the use of guest speakers, interest inventories, goal setting, parent seminars, and needs assessments.

### **Student-Led Conferences**

95% of students at New Direction will complete a student-led conference. New Direction feels that student-led conferences help prepare students for transition to their base school as well as improve soft skills.
