

Success CSI 2019-2020

Our Mission: To prepare students for a successful transition into college or a career.

Our Vision: A caring place that gives students a second chance to earn graduation credits, career technical credentials and make positive contributions in their community.

The Success Program Offers

The Success Program is a dropout prevention program in Shelby County Schools. The program offers students the opportunity to earn high school academic credits and certification in a career/technical program. Students cannot graduate early, but can accelerate in academic courses in an effort to get back on track and graduate with their Kindergarten grade cohort.

Social-Emotional and Academic Learning (SEAL)

The Success program will increase social-emotional and academic learning for 2019-2020 school year by 10%. Our strategy is to meet weekly with students and address social-emotional and academic needs through small group instruction and discussion. Students will complete weekly activities designed around social-emotional and academic needs through various opportunities such as the use of guest speakers, interest inventories, goal setting, parent seminars, and needs assessments.

Graduation Rate

The Success program will increase the graduation rate of students in the program by 1%. The Success faculty and staff will monitor weekly progress of all students and utilize intervention strategies for students on a weekly basis.
