

# AP Biology

## Resources

AP Bio study book is recommended (Cliff's or Barron's seem to be the best)

Notes from Freshman Bio (if you still have them)

Textbook (will need to get from Mr. Hines during the last week of school before summer or from the guidance office during summer)

Google Classroom: u02krg5

Assignments	Due Date	Method of Submission
1. <a href="#">Biochemistry, Protein, &amp; Enzyme</a> Pogils	8/7	All assignments will need to be hand written and turned in the 1 <sup>st</sup> day of school
2. <a href="#">Functional Group Chart</a>	8/7	
3. <a href="#">Dehydration vs. Hydrolysis Reaction</a>	8/7	
4. <a href="#">Ecology and Evolution Project</a>	8/7	
5. <b><u>READ CHAPTERS 2-5 IN TEXTBOOK</u></b>		

## Other Information

You will need a calculator for this class

AP Biology (Bio) is a college equivalent Biology course. As such, ***IT IS NOT EASY***. This class is not a review of Freshman Bio. We do cover much of the same material; however, we cover it in more detail and more quickly than it was covered during Freshman Bio AND we cover topics that were not discussed in Freshman Bio. All tests include a multiple-choice and free response (essay) section, just like the AP Exam.
